The doctors and staff at this practice are committed to providing high quality healthcare and services to patients.

If you have any complaint or concern about the service that you have received from the practice, please let us know.  
We operate a complaints procedure as part of the NHS system for dealing with complaints. The practice complaints procedure meets national criteria.

## How to complain

It is best to tell a member of staff about any concerns or problems as soon as they arise and we will try and sort them out.

If you wish to make a complaint please let us have details of your complaint soon, so we can find out what happened. It helps us if you can give us as full details as possible.

You can ask for an appointment or book a telephone call with the management team to discuss your concerns. The management team will explain the complaints procedure to you and make sure that your concerns are dealt with promptly.

You need to make your complaint within 12 months of the incident that caused the problem OR within 12 months of discovering that you have a problem relating to a specific incident.

## What we will do

We will contact you about the complaint within three working days and aim to have looked into your complaint within ten working days. As part of our review we may contact you to discuss the best way to investigate the complaint, including the timescales for a reply. We will aim to offer you an explanation within an agreed time frame, or a meeting with the people involved.

## Complaining on behalf of someone else

Medical records are protected by the Data Protection Act 1998. If you are complaining on behalf of someone else we need to know that you have their permission to do so. A note signed by the person concerned will be needed unless they are incapable (i.e. due to illness) of providing this.
